Knowledge Repository News

Among the 70 new entries in the Knowledge Repository, 18 focus on the built environment and COVID-19. Research in this area is becoming available at an accelerated rate to support efforts to combat the disease. By clicking on the "doi" links below, you will find many of the COVID-19 papers are open-access (free). Note: because journals are prioritizing quick access to information, many of these papers have not yet gone through the rigors of the peer-review process.

(Papers published ahead of print "in press" will be updated as volume and page information becomes available.)
