We're All In With ASHE

As ASHE's Strategic Educational Collaborator, we bring design research, education & resources that improve health outcomes.

**What works?
What doesn't?**

See what the research says.

Knowledge Repository

This open-access, searchable database of over 6,000 research citations, Center-authored Key Point Summaries and full-article links is updated on a monthly basis with the latest and most relevant research findings.

Interactive Design Diagrams

Select from over a dozen room types – Inpatient/Acute, Outpatient/Ambulatory and Environments for Aging – then select the desired outcome to see the applicable design strategies and evidence source.

Show what you know.

**Get certified in
Evidence-Based Design.**

EDAC Training & Certification

Created 15 years ago to educate and recognize individuals who demonstrate the ability to apply an evidence-based process to facility design, today over 3,000 professionals worldwide are EDAC-certified.

Elevate your project work, firm reputation or professional skillset. We'll help you pass with online prep sessions and study aids.

**I know great design
when I see it.**

Project profiles to light your bulb.

Insights & Solutions Library

Project briefs, design strategies, lessons learned and more provide information, ideas and inspiration. Search by facility, unit or room type; by room feature or element; or by desired outcome.

Touchstone & Healthcare Environment Awards

More than just a pageant of pretty pictures, these rigorously-judged awards recognize exemplary use of an evidence-based design process and pursuit of measurable outcome improvements.

Get friends with benefits.

**Professional communities to
get connected.**

Affiliate Membership

Affiliate members stay current on design advances and connected with like-minded colleagues. Affiliate+ members enjoy free webinar and topical toolbox access, plus exclusive content and discounts.

Environment Networks

These collegial networks bring together executive-level facility, design and solutions professionals to learn and connect in open, strategic discussions, idea and resource exchanges, and personal dialogue.

Stand on their shoulders. Engage in unique, expert-led learning experiences.

Webinars and Design Workshops

Explore a new topic, inform current projects, brown-bag learn with your team, hear an industry icon, get smart(er) or just earn an easy CEU. Our learning events are regarded as among the best in the industry.

Engaging and Interactive Events

Dialogue with renowned thought leaders at Voices of the Industry. Experts share one-on-one guidance in our Evidence-Based Design Coaching Workshops. Journal Club attendees interact with research authors.

Beyond compliance. Tools for achieving FGI Guideline requirements.

Safety Risk Assessment Toolkit

Required by FGI Guidelines, this tool drives multidisciplinary discussion to leverage design and mitigate risk. It targets six areas of safety, identifying risks and solutions, and tracking progress toward objectives.

The Functional Program Process Guide

Using FGI's format, this guide assists with functional program development – a regulatory requirement for most projects – that optimizes project design to improve patient, staff and sustainability outcomes.

and programs at healthdesign.org

WELCOME TO THE CENTER

The Center for Health Design, a San Francisco-based 501(c)3 non-profit organization founded in 1993, strives to maximize health through informed design.

Through design research, education and community, we're equipping industry professionals with strategies, tools, resources and training that enable them to find credible evidence and then use an Evidence-Based Design process to make the most effective design decisions for all types of care environments.

We share our research and resources broadly – on our website, at virtual and in-person learning events, and in partnership with many organizations, associations and institutions – no membership required.

Or join The Center as an Affiliate, access exclusive content and discounts, and support our mission and work.

Together with our community, we're making a positive, measurable difference in patient, family and staff health, safety and satisfaction outcomes, and in business operation cost-savings and efficiencies.
