1. List four (4) things you learned while reading this article?

- 2. What are the three modes of transmission of HAIs through the built environment?
- 3. Why is a conceptual framework an essential tool when working with a multidisciplinary research team?
 - a) It can be a way to keep track of the literature search methods.
 - b) A conceptual framework is the outline for writing the research paper.
 - c) A conceptual framework can serve as a "Rosetta Stone" so that a group of researchers with diverse backgrounds, terminology and expertise can approach a problem with a common understanding.
 - d) It gives readers something interesting to consider.
- 4. Which of the following is the best strategy through the built environment to interrupt the chain of transmission HAIs?
 - a) Disinfection
 - b) Filter
 - c) Changing behaviors

Evidence-Based Design Journal Club CEU Verification Form & Quiz

d) All of the above

	Grade: Relevance / value				Comments
	Agree Disagree				
	4	3	2	1	
Was the content of the webinar relevant for your professional development?					
Was the content of the webinar relevant to projects you are working on?					
Was the presenter knowledgeable about the topic?					
Was the scheduled time convenient?					
Are you interested in similar topics for professional development?
